Zend Framework: Zend_Translate_Adapter_Ini Component Proposal

Proposed Component Name	Zend_Translate_Adapter_Ini
Developer Notes	http://framework.zend.com/wiki/display/ZFDEV/Zend_Translate_Adapter_Ini
Proposers	• Thomas Weidner • Team lead and main author of Zend_Translate • Matthew Weier O'Phinney (Zend Liaison)
Revision	1.0 - 26 September 2007: New source integration for Zend_Translate. (wiki revision: 8)

Table of Contents

1. Overview
2. References
3. Component Requirements, Constraints, and Acceptance Criteria
4. Dependencies on Other Framework Components
5. Theory of Operation
6. Milestones / Tasks
7. Class Index
8. Use Cases
9. Class Skeletons

1. Overview

Zend_Translate_Adapter_Ini is an additional source integration for the core component Zend_Translate.

2. References

- none

3. Component Requirements, Constraints, and Acceptance Criteria

- Zend_Translate_Adapter_Ini is an additional source format for Zend_Translate
- It will integrate the useage of Ini files for translation into the Zend_Framework
- This component can not create new Ini files, it only can parse them for framework integration

4. Dependencies on Other Framework Components

- Zend_Translate_Abstract
- Zend_Exception

5. Theory of Operation

This component integrates Ini source files into the Zend_Framework.
It derives from Zend_Translate_Abstract and can be used by Zend_Translate to serve source files for translation.

Ini Files are simple from the point of creation.
They can be processed by customers with a simple text editor.

6. Milestones / Tasks

- Milestone 1: [DONE] proposal written
- Milestone 2: [DONE] Zend_Translate - Thomas Weidner
- Milestone 3: [DONE] Code class based on Zend_Translate_Abstract
- Milestone 4: [DONE] Unit tests and debugging
- Milestone 5: [DONE] Documentation done

7. Class Index

- Zend_Translate_Adapter_Ini

8. Use Cases

Use of translation - HTTP_ACCEPT_LANGUAGE: de_AT

```
$source = new Zend_Translate_Adapter_Ini('C:\translate\de\page.ini');
    $lang = new Zend_Translate($source);
    print $lang->_('Do you speak german ?'); // Prints: Sprichst Du deutsch ?
```

9. Class Skeletons

```
class Zend_Translate_Adapter_Ini extends Zend_Translate_Abstract
{
}
```

Example Ini File:

```
[translation for page1]
my.original.source = "Translation"
another.source     = "Second Translation"

"possible source" = "real translation"
```
